WHY?

Architecture is the art and science of designing buildings and structures. It could also be the manipulation of shapes, forms, space and light to change our environment.

CREATIVE WORK

- Architecture is a creative field that requires a great deal of vision and expression.

THE FIELD ATTRACTS PASSIONATE PEOPLE

- Architects see the world in a very specific way and share a strong appreciation for buildings, landscapes and cities.

FAST-PACED CAREER

- Architects have to constantly educate themselves in order to keep up with the field, which makes it both challenging and exciting.

Architects registered with the Council of Architecture, New Delhi can work with Government organizations other than private projects of their own.
